

SECTION 24 J

SPEECH and LANGUAGE ATTRITION PLAN

PROCEDURES

- 1.** If a speech and language therapy vacancy occurs in a position that is assigned to a district, then the district will fill that vacancy. As all districts have equalized funding, the responsibility for funding the position will be that of the district.
- 2.** If a speech and language therapy vacancy occurs in the one SCOE position that serves T.C. and Larsen, then Fairfield-Suisun or Vacaville will provide speech and language services to the program located within their boundaries as these programs primarily serve Fairfield and Vacaville students. For non-district students, a fee for service arrangement will be made based on the current fee for service schedule.
- 3.** If an opening occurs by the resignation of either of the two speech therapy specialists that are assigned as SDC units to the Me Too Program, then SCOE would fill those positions by advertising both internally and externally. If there were no internal applicant, then the position would be filled externally by SCOE.
